About the College

The College VITW was founded by Sri Boyapati Appa Rao garu in 2008, with the objective of providing excellent learning facility for women to pursue education in Engineering. VITW is affiliated to JNTUK, approved by AICTE, certified by ISO 9001:2015. VITW is only women's engineering college in the heart of Vijayawada city offering engineering undergraduate courses in CSE, ECE, IT and Masters in business administration and diploma engineering courses in DCME, DECE, DEEE. VITW has made its presence felt more with academic, discipline, results and the achievements of its students.

About ECE Department

The Department of Electronics and Communication Engineering (ECE) is established in the year 2008 with a view to develop quality engineers to meet the current trends. The Department provides Undergraduate programmed in B.Tech (ECE) is noted for research and teaching excellence. Its recognized faculty members are engaged in breakthrough research across the leading areas of Electronics and Communication Engineering

09-12-2022 to 27-12-2022

VIJAYA INSTITUTE OF TECHNOLOGY FOR WOMEN

(An ISO 9001:2015 Certified Institution, Affiliated to
JNTU, Kakinada),

Enikepadu, Vijayawada-521108

Andhra Pradesh, India

About the Course

- Drones rely on a combination of hardware and software components to achieve successful takeoff, flight and landing. Drones are often equipped with rotors or fixed wings, sensors, navigation systems and gyroscopes (for stability), and are operated by ground control stations.

Objectives

- The primary purpose of a drone ranges from military to commercial and recreational applications. Drones are beneficial because they can access the most remote areas where people find it difficult. Still, the type of drone determines the role it plays and its cost

.Outcomes

- The drones applications in industrial inspection, package delivery, agriculture and others are evolving at an enormous rate and expected to get better in future
- The hardware, as well as software, is expected to improve and provide a wide range of capabilities.
- The drone technology and photogrammetric software, mapping can be achieved much faster, cheaper, with more accuracy, and with more flexibility and safety

Topics to be covered

- Introduction to drone technology
- Working of Drones
- Features and Components of a Drone
- Types of Drones
- Applications of drones
- History of the drones
- UAV Reception
- Drone Regulation
- Future outlook for Drone Technology
- Drones and Machine learning
- Flying IOT
- Autonomous drones
- Military Drone Technology
- Generations of Drone Technology
- Implementing Drone technology

About the College

The College VITW was founded by Sri Boyapati Appa Rao garu in 2008, with the objective of providing excellent learning facility for women to pursue education in Engineering. VITW is affiliated to JNTUK, approved by AICTE, certified by ISO 9001:2015. VITW is only women's engineering college in the heart of Vijayawada city offering engineering undergraduate courses in CSE,ECE,IT,AIIML and Masters in business administration and diploma engineering courses in DCME, DECE, DEEE. VITW has made its presence felt more with academic, discipline, results and the achievements of its students.

About ECE Department

The Department of Electronics and Communication Engineering (ECE) is established in the year 2008 with a view to develop quality engineers to meet the current trends. The Department provides Undergraduate programmed in B.Tech (ECE) is noted for research and teaching excellence. Its recognized faculty members are engaged in breakthrough research across the leading areas of Electronics and Communication Engineering

About the Course

- The Raspberry Pi is a low cost, credit-card sized computer that plugs into a computer monitor or TV, and uses a standard keyboard and mouse. It is a capable little device that enables people of all ages to explore computing, and to learn how to program in languages like Scratch and Python. It's capable of doing everything you'd expect a desktop computer to do, from browsing the internet and playing high-definition video, to making spreadsheets, word-processing, and playing games

Objectives

- This course elucidates concepts related to Internet of Things.
- The students will get hands on experience in working with Raspberry Pi and exploring IoT

Outcomes

- After completion of the course, students will be able to understand the working of Raspberry Pi.
- its features and how various components can be used with Pi.

Topics to be covered

- Overview of IoT
- Overview of Embedded Systems
- Hardware and Software Components in IoT devices
- Interaction between Hardware and Software in IoT devices
- Getting started with Raspberry Pi
- Introduction to Linux Operating System and Linux Commands
- Introduction to Raspbian Operating System and Booting Up Raspberry Pi
- Basic operations of the Raspberry Pi
- Working with Python
- General Purpose I/O (GPIO) and their control using Python
- Introduction to networking in relation to iot applications
- Communication between Raspberry Pi/iot components over the network
- Communication between Raspberry Pi and iot-based Clouds
- Applications of iot using Raspberry Pi in Social media (Use case)
- Project (Only for students opting for project)

PROGRAM REPORT

Name of the Program : ADD ON COURSE on “IoT USING RASPBERRY PI”

Duration : 10-10-2022 to 26-10-2022

Resource Person : Mr.P.JASHUVA

Assistant Professor, Department of AIML,

Vijaya Institute of Technology for Women

Phone no : 8317627638

Name of the Coordinator : Mr.V.DEVASAHAYAM

No. of Participants : 62

Program Objective : This course elucidates concepts related to Internet of Things. The students will get hands on experience in working with Raspberry Pi and exploring IoT..

Topics Covered : Overview of IoT, Overview of Embedded Systems, Hardware and Software Components in IoT devices, Interaction between Hardware and Software in IoT devices, Getting started with Raspberry Pi, Introduction to Linux Operating System and Linux Commands, Introduction to Raspbian Operating System and Booting Up Raspberry Pi, Basic operations of the Raspberry Pi Working with Python, General Purpose I/O (GPIO) and their control using Python, Introduction to networking in relation to IoT applications, Communication between Raspberry Pi/IoT components over the network, Communication between Raspberry Pi and IoT-based Clouds, Applications of IoT using Raspberry Pi in Social media (Use case), Project (Only for students opting for project)

Program Outcome : After completion of the course, students will be able to understand the working of Raspberry Pi, its features and how various components can be used with Pi. The students will be able to understand IoT practically

About the College

The College VITW was founded by Sri Boyapati Appa Rao garu in 2008, with the objective of providing excellent learning facility for women to pursue education in Engineering. VITW is affiliated to JNTUK, approved by AICTE, certified by ISO 9001:2015. VITW is only women's engineering college in the heart of Vijayawada city offering engineering undergraduate courses in CSE,ECE,IT,AIIML and Masters in business administration and diploma engineering courses in DCME, DECE, DEEE. VITW has made its presence felt more with academic, discipline, results and the achievements of its students.

About ECE Department

The Department of Electronics and Communication Engineering (ECE) is established in the year 2008 with a view to develop quality engineers to meet the current trends. The Department provides Undergraduate programmed in B.Tech (ECE) is noted for research and teaching excellence. Its recognized faculty members are engaged in breakthrough research across the leading areas of Electronics and Communication Engineering

About the Course

- Embedded C is an extension to the C programming language including different features such as addressing I/O, fixed-point arithmetic, multiple-memory addressing, etc. In embedded C language, specific compilers are used. Its format mainly depends on the kind of microprocessor used

Objectives

- Embedded C is an extension of C language and it is used to develop microcontroller-based applications. The extensions in the Embedded C language from normal C Programming Language are the I/O Hardware Addressing, fixed-point arithmetic operations, accessing address spaces

Outcomes

- Identify Embedded C software components and know how they are different from standard C software components
- Recognize and use important concepts such as HAL (Hardware Abstraction Layer) to write Embedded C code that is portable to different embedded controllers

- Utilize hardware/software signaling mechanism to implement effective communication between embedded software stack and hardware

Topics to be covered

- Introduction to embedded systems
- Introduction to embedded c language,
- introduction to microcontroller
- Interfacing i/o peripherals with microcontroller
- Interfacing leds single colour, rgb color
- Interfacing buzzer
- Interfacing seven segment display
- Interfacing lcd
- Interfacing buzzer
- Interfacing seven segment display
- Interfacing lcd
- Interfacing relay module
- Interfacing push button
- Interfacing temperature & humidity sensor
- Interfacing light sensor, ir sensor
- Interfacing gas sensor
- Interfacing distance sensor
- Interfacing magnetic sensor
- Interfacing rf communication module
- Project (Only for students opting for project)

PROGRAM REPORT

- Name of the Program** : ADD ON COURSE ON “EMBEDDED HARDWARE DESIGN USING EMBEDDED C”
- Duration** : 15-03-2023 to 04-04-2023
- Resource Person** : Dr.K.MURALI
Associate Professor, Department of AIML,
Vijaya Institute of Technology for Women
Phone no:9966682535
- Name of the Coordinator** : P.Silpa
- No. of Participants** : 68
- Program Objective** : Embedded C is an extension of C language and it is used to develop micro-controller-based applications. The extensions in the Embedded C language from normal C Programming Language are the I/O Hardware Addressing, fixed-point arithmetic operations, accessing address spaces
- Topics Covered** : Introduction to embedded systems Introduction to embedded c language,Introduction to microcontroller Interfacing i/o peripherals with microcontroller,,Interfacing leds single colour, rgb color,Interfacing buzzer,Interfacing seven segment display,Interfacing lcd, Interfacing buzzer, Interfacing seven segment display, Interfacing lcd, Interfacing relay module, Interfacing push button, Interfacing temperature & humidity sensor, Interfacing light sensor, ir sensor, Interfacing gas sensor, Interfacing distance sensor, Interfacing magnetic sensor, Interfacing rf communication module
- Program Outcome** :
- Identify Embedded C software components and know how they are different from standard C software components
 - Recognize and use important concepts such as HAL (Hardware Abstraction Layer) to write Embedded C code that is portable to different embedded controllers
 - Utilize hardware/software signaling mechanism to implement effective communication between embedded software stack and hardware
 - Comprehend hardware communication protocols for implementation with other peripheral hardware devices such as GPIO, ADC, and Serial I/O
 - Understand embedded controller hardware and software stack and their respective differences from traditional software development

About the College

Vijaya Institute of Technology for Women is founded by Sri Boyapati Appa Rao Garu in 2008, with the objective of providing excellent education in engineering for women. VITW is affiliated to Jawaharlal Nehru Technological University (JNTUK), Kakinada, approved by AICTE, Certified by ISO 9001:2015. VITW is the only women's Engineering College in the heart of Vijayawada city, offering Engineering Undergraduate Courses in CSE, ECE, EEE and IT, MBA and Diploma Engineering courses in CSE, ECE and EEE. VITW, being the only one Women's Engineering College in Vijayawada, has made its presence felt with its academic discipline, results and the achievements of students.

About AIML Department

The department has well-qualified, experienced and dynamic faculty who are engaged in break through research across the leading areas of Artificial Intelligence and Machine Learning.

The Engineer & Society, a part of AIML Department produces versatile students encourages them to be employed in exciting careers. On an individual level, Department improves programming skills and creates awareness among the recent trends & technologies in the computer field.

About the Course

ThingWorx is the complete Platform which is end-to-end technology Platform designed for the industrial IoT. It is the combination of cultural philosophies, practices, and tools that increases an organization's ability to deliver applications and services at high pace: evolving and improving products at a faster pace than organizations using traditional software development and infrastructure management processes.

Objectives

- Use ThingWorx for statistical programming, computation, graphics, and modelling,
- Write functions and use PTC in an efficient way,
- Fit some basic types of statistical models of ThingWorx
- Use PTC in their own research
Be able to expand their knowledge of ThingWorx on their own

Outcomes

- List motivation for learning IoT in ThingWorx Technology.
- Access online resources for ThingWorx.
- Import, review and summarize dashboards in PTC
- To provide foundation level knowledge of IoT with ThingWorx

Topics to be Covered

- Introduction to Internet of Things with ThingWorx
- Functionality & Edge of ThingWorx
- Components of ThingWorx
- ThingWorx Core
- ThingWorx Connection Services
- Descriptive Analysis of ThingWorx
- Application Keys in ThingWorx
- PTC ThingWorx in detail

PROGRAM REPORT

Name of the Program: Add-On Course on “INTERNET OF THINGS WITH THINGWORX”

Duration: 29/03/2023 to 15/04/2023

Resource Person: Dr. K. Murali

Associate Professor, Department of AIML,

Vijaya Institute of Technology for Women

Phone Number : 9966682535

Name of the Coordinator: Mr. P. Jashuva

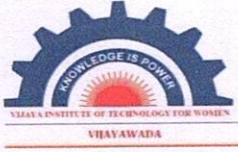

No. of Participants: 43

Program Objective: After taking the course, students will be able

- To understand basics of ThingWorx
- To know the industrial IoT with ThingWorx
- To learn about how to maintain the confidentiality, integrity and availability deployment applications.
- To understand various components of ThingWorx and the application keys in ThingWorx
- To identify the advantages and disadvantages of ThingWorx.

Topics Covered:

1. Introduction to Internet of Things and ThingWorx
2. Industrial Applications of ThingWorx
3. Components and Services of ThingWorx
4. ThingWorx Core
5. ThingWorx Connection Services
6. ThingWorx Edge
7. PTC ThingWorx in detail
8. PTC ThingWorx monitoring
9. Application Keys in ThingWorx
10. ThingWorx Functionality
11. Descriptive Analysis of ThingWorx
12. How to Access Descriptive Analysis Functionality
13. ThingWorx Industrial IoT Software
14. ThingWorx Industrial IoT Case Study
15. Overview of IoT in ThingWorx

About the College

Vijaya Institute of Technology for Women is founded by Sri Boyapati Appa Rao Garu in 2008, with the objective of providing excellent education in engineering for women. VITW is affiliated to Jawaharlal Nehru Technological University (JNTUK), Kakinada, approved by AICTE, Certified by ISO 9001:2015. VITW is the only women's Engineering College in the heart of Vijayawada city, offering Engineering Undergraduate Courses in CSE, ECE, EEE and IT, MBA and Diploma Engineering courses in CSE, ECE and EEE. VITW, being the only one Women's Engineering College in Vijayawada, has made its presence felt with its academic discipline, results and the achievements of students.

About AIML Department

The department has well-qualified, experienced and dynamic faculty who are engaged in break through research across the leading areas of Artificial Intelligence and Machine Learning.

The Engineers & Society, a part of AIML Department produces versatile students encourages them to be employed in exciting careers. On an individual level, Department improves programming skills and creates awareness among the recent trends & technologies in the computer field.

About the Course

Drone Technology is the combination of cultural philosophies, practices, and tools that increases an organization's ability to deliver applications and services at high pace: evolving and improving products at a faster pace than organizations using traditional software development and infrastructure management processes.

Objectives

- Use DJI for statistical programming, computation, graphics, and modelling,
- Write functions and use DJI Tello in an efficient way,
- Fit some basic types of statistical models of Novice Drone
- Use DJI Tello in their own research
Be able to expand their knowledge of DJI Tello on their own

Outcomes

- List motivation for learning Drone Technology.
- Access online resources for DJI and import new function packages into the DJI workspace.
- Import, review, manipulate and summarize dashboards in DJI.

Topics to be Covered

- Drone Technology
- Workflow in DJI Tello
- Field Configuration
- Novice Drone Creation
- Querys in Drone
- Creating a DJI project
- Drone service management
- Custom mail notifications in DJI Tello
- Abstraction of real time Drone Operation

PROGRAM REPORT

Name of the Program: Add-On Course on “ARTIFICIAL INTELLIGENCE IN DRONE TECHNOLOGY”

Duration : 01/11/2022 to 19/11/2022

Resource Person: Dr. K. Murali

Associate Professor, Department of AIML,

Vijaya Institute of Technology for Women

Phone Number : 9966682535

Name of the Coordinator: Mr. P. Jashuva

No. of Participants: 52

Program Objective: After taking the course, students will be able

- Compare the latest Drone technology with the old used methods.
- Forecast the possible areas where faults can occur.
- Assessment of the measures positive side of Drone and their amount in the Trend.
- Assessing, i.e. how much strong Novice Drone is.
- Measurement of the degree of ambiguity of DJI Tello Python Pose Estimation Code.
- Observe and control the influences of other associated characteristics.

Topics Covered:

1. Basic Drone operation
2. DJI Tello and Mini 2 demos
3. DJI Tello and Fly app features
4. Computer Vision
5. Object Detection Presentation and Demo
6. Pose Estimation Presentation
7. Natural Language Processing Presentation
8. DJI Mobile SDK exploration, Android code and FPV Demo

9. Wrap-up and DJI Tello Python Pose Estimation Code
10. Novice Drone enthusiast will be pulled into outdoors demo fun-filled session
11. Indoors sessions also have demos associated with Novice Drone
12. DJI Tello in detail for practical applications
13. Part presentation and part hands-on demo
14. Hands on Demo on Practical Novice Drone
15. Hands on experience on DJI Tello

Program Outcome: At the end of this course, students will be able

- To Articulate meaningful lines of inquiry that might be explored through the collection, organization, visualization, and analysis of Novice Drone in a context.
- To Understand what data are, how they are collected, the role of DJI in understanding a given set of data, and how to assess the quality/reliability of drone technology.
- have intermediate proficiency in the acquisition and organization of drone.
- To Use at beginning level of proficiency the tools of DJI Python and Novice Drone to ask questions of and explore patterns in drone technology.
- To Demonstrate intermediate proficiency in the Novice Drone of drone to communicate information and patterns that exist in the drone DJI Tello.

About the College

Vijaya Institute of Technology for Women is founded by Sri Boyapati Appa Rao Garu in 2008, with the objective of providing excellent education in engineering for women. VITW is affiliated to Jawaharlal Nehru Technological University (JNTUK), Kakinada, approved by AICTE, Certified by ISO 9001:2015. VITW is the only women's Engineering College in the heart of Vijayawada city, offering Engineering Undergraduate Courses in CSE, ECE, EEE and IT, MBA and Diploma Engineering courses in CSE, ECE and EEE. VITW, being the only one Women's Engineering College in Vijayawada, has made its presence felt with its academic discipline, results and the achievements of students.

About IT Department

The department has well-qualified, experienced and dynamic faculty along with technical skills who spearhead the process of achieving the vision of the department. The department was established in the year 2008 with B.Tech programme in Information Technology. The Objective of the department is to impart quality education with practical approach and to develop research, innovative skills. To face Challenges of the industry & Academia.

About the Course

Data analytics is the process of examining, cleaning, transforming, and interpreting data to extract valuable insights, patterns, and trends. It involves the use of various techniques and tools to analyze data and make informed decisions.

Objectives

- ❖ Insight Generation
- ❖ Data-Driven Decision Making
- ❖ Improving Efficiency
- ❖ Enhancing Customer Experience
- ❖ Risk Management
- ❖ Marketing and Sales Optimization
- ❖ Product Development
- ❖ Fraud Detection and Prevention
- ❖ Resource Allocation
- ❖ Compliance and Regulation

Outcomes

Data analytics can lead to a wide range of outcomes and benefits for organizations and individuals. Here are some of the key outcomes of data analytics:

- ❖ Improved Decision Making
- ❖ Cost Reduction
- ❖ Revenue Growth
- ❖ Enhanced Customer Experience
- ❖ Risk Management
- ❖ Process Optimization
- ❖ Competitive Advantage
- ❖ Product Development

Topics to be Covered

- ❖ Data Collection and Acquisition
- ❖ Data Collection and Acquisition
- ❖ Data Cleaning and Pre-processing
- ❖ Statistical Analysis
- ❖ Machine Learning
- ❖ Big Data and Distributed Computing
- ❖ Data Visualization
- ❖ Data Mining
- ❖ Text Analytics and Natural Language Processing (NLP)
- ❖ Time Series Analysis
- ❖ Business Intelligence (BI)

About the College

Vijaya Institute of Technology for Women is founded by Sri Boyapati Appa Rao Garu in 2008, with the objective of providing excellent education in engineering for women. VITW is affiliated to Jawaharlal Nehru Technological University (JNTUK), Kakinada, approved by AICTE, Certified by ISO 9001:2015. VITW is the only women's Engineering College in the heart of Vijayawada city, offering Engineering Undergraduate Courses in CSE, ECE, EEE and IT, MBA and Diploma Engineering courses in CSE, ECE and EEE. VITW, being the only one Women's Engineering College in Vijayawada, has made its presence felt with its academic discipline, results and the achievements of students.

About IT Department

The department has well-qualified, experienced and dynamic faculty along with technical skills who spearhead the process of achieving the vision of the department. The department was established in the year 2008 with B.Tech programme in Information Technology. The Objective of the department is to impart quality education with practical approach and to develop research, innovative skills. To face Challenges of the industry & Academia.

About the Course

The Internet of Things (IoT) is a concept that refers to the interconnection of everyday physical objects and devices to the internet, allowing them to collect and exchange data. These objects can range from simple household appliances like thermostats and light bulbs to more complex industrial machinery and vehicles. The primary goal of IoT is to enable these objects to communicate with each other and with centralized systems or applications, providing valuable information and automation capabilities.

Objectives

- ❖ Devices and Sensors
- ❖ Connectivity
- ❖ Data Processing and Analysis
- ❖ User Interfaces
- ❖ Automation
- ❖ Security and Privacy
- ❖ Scalability

Outcomes

The Internet of Things (IoT) has the potential to impact various industries and aspects of our lives in significant ways. Here are some of the key outcomes and benefits associated with IoT:

Topics to be Covered

- ❖ IoT Fundamentals
- ❖ IoT Architecture
- ❖ IoT Devices and Sensors
- ❖ IoT Connectivity
- ❖ IoT Data Analytics
- ❖ IoT Security

Program Objective: After taking the course, students will be able to

- Establish themselves as professionals by solving real-life problems using exploratory and analytical skills acquired in the field of Computer Science and Engineering.
- Provide sustainable solutions to ever changing interdisciplinary global problems through their Research & Innovation capabilities.
- Become employable, successful entrepreneur as an outcome of Industry-Academia collaboration.
- Embrace professional code of ethics while providing solution to multidisciplinary social problems in industrial, entrepreneurial and research environment to demonstrate leadership qualities.

Topics Covered:

1. Introduction of IOT
2. IOT PROTOCOLS
3. IOT ARCHITECTURE
4. WEB OF THINGS
5. IOT APPLICATIONS

About the Course

CyberArk is a publicly traded information security company offering identity management. The company's technology is utilized primarily in the financial services, energy, retail, healthcare and government markets. CyberArk is headquartered in Newton, Massachusetts. The company also has offices throughout the Americas, EMEA, Asia Pacific and Japan.¹

Objectives

After taking the course, students will be able to

- Gain the skills and expertise needed to build, deploy, and configure the CyberArk Privileged Account Security Solution.
- Learn to set up authentication methods.

- Grasp concepts such as architecture and procedures of CyberArk privileged account protection program.

Outcomes

At the end of this course, students will be able to

- Install and configure the CyberArk Privileged Account Security solution securely through hands-on practice.
- Master concepts like CyberArk Privileged Account Security system architecture and workflows.
- Configure authentication methods.
- Secure and install Central Policy Manager (CPM), Privileged Session Manager (PSM), and Password Vault Web Access Manager (PVWA) in a distributed or Load Balanced configuration.
- Integrate with external services. E.g. LDAP/S, SMTP, NTP, and SYSLOG.

Topics to be Covered

- Introduction to Cyberark and PAM
- Cyberark components
- Infrastructure of Cyberark
- Primary vault Installation
- DR vault Installation

Phone No: 7997444467

Name of the Coordinator : Mrs. Y. Lakshmi Durga

No. of Participants : 97

Program Objectives : After taking the course, students will be able to

- Gain the skills and expertise needed to build, deploy, and configure the CyberArk Privileged Account Security Solution.
- Learn to set up authentication methods.
- Grasp concepts such as architecture and procedures of CyberArk privileged account protection program.

Topics Covered : Introduction to Cyberark and PAM, Cyberark components, Infrastructure of Cyberark, Primary vault Installation, Vault data backup restore, PVWA Installation, CPM Installation, PSM Installation, DAP Installation, SMTP Integration, SYSLOG Integration, Radius Integration, DR vault Installation

Program Outcomes : At the end of this course, students will be able to

- Install and configure the CyberArk Privileged Account Security solution securely through hands-on practice.
- Master concepts like CyberArk Privileged Account Security system architecture and workflows.
- Configure authentication methods.
- Secure and install Central Policy Manager (CPM), Privileged Session Manager (PSM), and Password Vault Web Access Manager (PVWA) in a distributed or Load Balanced configuration.
- Integrate with external services. E.g. LDAP/S, SMTP, NTP, and SYSLOG.

About the College

Vijaya Institute of Technology for Women is founded by Sri Boyapati Appa Rao Garu in 2008, with the objective of providing excellent education in engineering for women. VITW is affiliated to Jawaharlal Nehru Technological University (JNTUK), Kakinada, approved by AICTE, Certified by ISO 9001:2015. VITW is the only women's Engineering College in the heart of Vijayawada city, offering Engineering Undergraduate Courses in CSE, ECE, EEE and IT, MBA and Diploma Engineering courses in CSE, ECE and EEE. VITW, being the only one Women's Engineering College in Vijayawada, has made its presence felt with its academic discipline, results and the achievements of students.

About CSE Department

The department has well qualified, experienced and dynamic faculty who are engaged in break through research across the leading areas of computer science and engineering. The engineering and Society, a part of CSE Department produces versatile students and encourages them to be employed in exciting careers. On an individual level, the department improves programming skills and creates awareness among the recent trends and technologies in the computer field.

About the Course

Block chain technology is an advanced database mechanism that allows transparent information sharing within a business network. A block chain database stores data in blocks that are linked together in a chain.

Objectives

After taking the course, students will be able to

- Describe the basic concepts and technology used for block chain.
- Describe the primitives of the distributed computing and cryptography related to blockchain.
- Illustrate the concepts of Bit coin and their usage.
- Implement Ethereum block chain contract.

- Apply security features in blockchain technologies.
- Use smart contract in real world applications.

Outcomes

At the end of this course, students will be able to

- Understand block chain technology.
- Understand Cryptocurrency
- Understand Smart contract
- Use Remix IDE
- Develop block chain based solutions and write smart contract using Ethereum Framework
- Deploy Decentralized Application

Topics to be Covered

- Block chain fundamentals
- Decentralization
- Blocks and chain
- Cryptography
- Consensus Mechanisms
- Public vs. Private Blockchains

- Evolution
- Challenges
- Use Cases.

Duration : 05/10/2022 to 22/10/2022

Resource Person : Mrs.Ch.Deepika , Assistant Professor,Department of CSE
Vijaya Institute of Technology for Women

Phone No: 7286874866

Name of the Coordinator : Mrs.J.Kannamma

No. of Participants : 124

Program Objectives : After taking the course, students will be able to

- Describe the basic concepts and technology used for blockchain.
- Describe the primitives of the distributed computing and cryptography related to blockchain.
- Illustrate the concepts of Bitcoin and their usage.
- Implement Ethereum block chain contract.
- Apply security features in blockchain technologies.
- Use smart contract in real world applications

Topics Covered : Block chain fundamentals, Decentralization,Blocks and chain, Cryptography,Consensus Mechanisms,Public vs. Private Blockchains,Evolution,Challenges,Use Cases.

Program Outcomes : At the end of this course, students will be able to:

- Understand block chain technology.
- Understand Cryptocurrency
- Understand Smart contract
- Use Remix IDE
- Develop block chain based solutions and write smart contract using Ethereum Framework
- Deploy Decentralized Application

About the College

Vijaya Institute of Technology for Women is founded by Sri Boyapati Appa Rao Garu in 2008, with the objective of providing excellent education in engineering for women. VITW is affiliated to Jawaharlal Nehru Technological University (JNTUK), Kakinada, approved by AICTE, Certified by ISO 9001:2015. VITW is the only women's Engineering College in the heart of Vijayawada city, offering Engineering Undergraduate Courses in CSE, ECE, EEE and IT, MBA and Diploma Engineering courses in CSE, ECE and EEE. VITW, being the only one Women's Engineering College in Vijayawada, has made its presence felt with its academic discipline, results and the achievements of students.

About CSE Department

The department has well qualified, experienced and dynamic faculty who are engaged in break through research across the leading areas of computer science and engineering. The engineering and Society, a part of CSE Department produces versatile students and encourages them to be employed in exciting careers. On an individual level, the department improves programming skills and creates awareness among the recent trends and technologies in the computer field.

About the Course

Microsoft Azure, formerly known as Windows Azure, is Microsoft's public cloud computing platform. It provides a broad range of cloud services, including compute, analytics, storage and networking. Users can pick and choose from these services to develop and scale new applications or run existing applications in the public cloud. It offers tools that support all industries -- including e-commerce, finance and a variety of Fortune 500 companies -- and is compatible with open source technologies

Objectives

- This course will provide foundational-level knowledge of cloud services and how those services are provided with Microsoft Azure.

- The course can be taken as an optional first step in learning about cloud services and Microsoft Azure, before taking further Microsoft Azure or Microsoft cloud services courses.

Outcomes

- Design and implement web apps
- Create and manage virtual machines
- Design and implement cloud services
- Execute a storage strategy
- Manage application and network services

Topics to be Covered

- Virtual Machines
- Azure Spot Virtual Machines
- Azure Functions
- Azure Disk Storage
- Azure Files
- Azure File Sync
- Azure Load Balancer
- Azure Firewall Manager
- Azure Firewall

- Azure Bastion
- Azure Application Gateway
- Azure Web Application Firewall
- Microsoft Defender for Cloud
- Key Vault
- Microsoft Defender for IoT

Program Report

NAME OF THE PROGRAM: Add-On Course on" AZURE"

Period : 13/02/2023 to 02/03/2023.

Resource Person : Mr. Balakrishna, Assistant Professor, Department of CSE
Vijaya Institute of Technology for Women
Phone No:9177073938

Name of the Coordinator: Ms.D.Vijayakumari

No. of Participants: 118

Program Objectives : After taking the course, students will be able to

- Provide foundational-level knowledge of cloud services and how those services are provided with Microsoft Azure.
- The course can be taken as an optional first step in learning about cloud services and Microsoft Azure, before taking further Microsoft Azure or Microsoft cloud services courses.

Topics Covered: Virtual Machines, Azure Spot Virtual Machines, Azure Functions, Azure Disk Storage, Azure Files, Azure Load Balancer, Azure File Sync, Azure Firewall, Azure Firewall Manager, Azure Bastion, Azure Application Gateway, Azure Web Application Firewall, Microsoft Defender for Cloud, Microsoft Defender for IoT, Key Vault

Program Outcomes: At the end of this course, students will be able to:

- Design and implement web apps
- Create and manage virtual machines
- Design and implement cloud services
- Execute a storage strategy
- Manage application and network services

About the College

Vijaya Institute of Technology for Women is founded by Sri Boyapati Appa Rao Garu in 2008, with the objective of providing excellent education in engineering for women. VITW is affiliated to Jawaharlal Nehru Technological University (JNTUK), Kakinada, approved by AICTE, Certified by ISO 9001:2015. VITW is the only women's Engineering College in the heart of Vijayawada city, offering Engineering Undergraduate Courses in CSE, ECE, EEE and IT, MBA and Diploma Engineering courses in CSE, ECE and EEE. VITW, being the only one Women's Engineering College in Vijayawada, has made its presence felt with its academic discipline, results and the achievements of students.

About S & H Department

The department has well - qualified, experienced and dynamic faculty along with technical skills who spearhead the process of achieving the vision of the department. On an individual level it improves personality and sense of self-worth among students.

About the Course

R is an open-source software environment for statistical computing that is rapidly becoming the tool of choice for data analysis in the life sciences and elsewhere. It's developed by a large international community of scientists and programmers and is at the forefront of new developments in statistical computing.

Additionally, R is the foundation of Bioconductor, a similar open-source project focused on the development of bioinformatics analysis tools.

Understanding R's basic functionality is of benefit to undergraduates, graduates and researchers across diverse fields.

Objectives

- Able to install and read data files in R.
- Use R for statistical programming, computation, graphics, and modelling,

- Write functions and use R in an efficient way,
- Fit some basic types of statistical models
- They will learn to perform various operations and apply common functions to manipulate and analyze data using basic R syntax.

Outcomes

- Install R and Write simple pseudocode and create simple flow charts.
- Use file management and version control tools.
- Perform simple arithmetic and statistical operations in R.
- Import, review, manipulate and summarize data-sets in R.

Topics to be Covered

- R -Introduction and R- Basic
- Syntax
- Different Types of Data Structures
- R Installation Procedure

- R- Data types
- Different operators in R
- Variable Scope
- Exploring data
- Sub setting data
- Arithmetic and Boolean Operators and Values
- Data Frames
- Some Important R-Data structures
- R Programming Structures
- Doing math and Simulation

Program Report

Name of the Program : Add – On Course on

“STATISTICAL COMPUTING USING R- PROGRAMMING”

Duration: 27/02/2023 to 16/03/2023

Resource Person: Ms. T. Shalini , Assistant Professor, Department of CSE

Vijaya Institute of Technology for Women

Ph: +91 9966753260

Name of the Coordinator : Ms. G.E. Shanthi

No. of Participants: 102

Program Objective : After taking the course, students will be able to

- Able to install and read data files in R.
- Use R for statistical programming, computation, graphics, and modeling,
- Write functions and use R in an efficient way,
- Fit some basic types of statistical models
- They will learn to perform various operations and apply common functions to manipulate and analyze data using basic R syntax.

Topics Covered:

R- Introduction and R- Basic Syntax, Different Types of Data Structures, R Installation Procedure, R- Data types, Vectors in R, Different Values for Arguments, Variable Scope, exploring data, Sub setting data, Arithmetic and Boolean operators and Values, Data Frames, Preview of Some important R Data Structures, R Programming Structures, Doing Math and Simulation in R.

Program Outcome : At the end of this course, students will be able to:

- Install R and Write simple pseudocode and create simple flow charts.
- Use file management and version control tools.
- Perform simple arithmetic and statistical operations in R.
- Import, review, manipulate and summarize data-sets in R.

About the Course

Introduction to Computer Science and Programming in Python is intended for students with little or no programming experience. It aims to provide students with an understanding of the role computation can play in solving problems and to help students, regardless of their major, feel justifiably confident of their ability to write small programs that allow them to accomplish useful goals. The class uses the Python 3.5 programming Language.

Objectives

- Build basic programs using fundamental programming constructs like variables, conditional logic, looping, and functions.
- Work with user input to create fun and interactive programs

- Create simple games with images, animations, and audio using our custom beginner-friendly programming library, Wizardly.

Outcomes

- Interpret the fundamental Python syntax and semantics and be fluent in the use of Python control flow statements.
- Express proficiency in the handling of strings and functions.
- Determine the methods to create and manipulate Python programs by utilizing the data structures like lists, dictionaries and sets.
- operations in systems and regular expressions.

Topics to be Covered

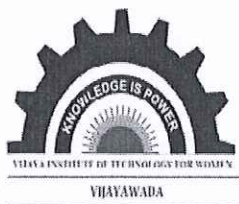

- Introduction
- Conditional Statements, looping, Control Statements
- String Manipulation
- Collections
- Functions
- Modules
- Input-Output
- Exception Handling
- OOPs concept
- Database

About the Course

MATLAB or (Matrix Laboratory) is a high performance fourth generation programming language which is used for technical computing. It provides multi paradigm numerical computing environment and was developed by Math Works. It is used for integrating computation, visualization, and programming, so that the programming environment becomes easy to use. The applications of MATLAB are immense. It is a powerful linear algebra tool with a very good collection of Toolboxes. therefore, it finds applications in research and teaching, on domains of robotics and automation.

Objectives

- To Impart the Knowledge to the students with MATLAB software. [This enhances programming knowledge in Research and Development].

- To provide a working introduction to the MATLAB technical computing environment. [Themes of data analysis, visualization, and programming].
- To introduce students the use of a high-level programming language, MATLAB. [Scientific problem solving with applications and examples from Engineering].

Outcomes

- Understand the basics of MATLAB
- Break a complex task up into smaller, simpler tasks
- Case Study (Any two Modules).
- The MATLAB user interface

Topics to be Covered

- Working with MATLAB data types
- Creating matrices and arrays

- Operators and Control statements
- Using scripts and functions
- Data import and export
- Using the graphical features
- Signal Processing
- Image Acquisition Toolbox
- Neural Network

About the College

The college Vijaya Institute of Technology for Women is founded by Sri Boyapati Appa Rao Garu in 2008, with the objective of providing excellent learning facility for women to pursue education in engineering. VITW is affiliated to Jawaharlal Nehru Technological University (JNTU), Kakinada, approved by All India Council for Technical Education (AICTE), Certified by ISO 9001:2015. VITW is the only women's Engineering College in the heart of Vijayawada city, offering engineering under graduate courses in CSE, ECE, EEE and IT, Masters in Business Administration and Diploma Engineering courses in CSE, ECE and EEE. VITW is not just one more engineering college. It's a college with a difference. It has made its presence felt more with its academic discipline, results and the achievement of its students.

About MBA Department

The department was established in the year 2009 and offers 2 year full time Master of Business Administration (MBA) program with the approval of AICTE, and affiliated to JNTUK. Department of MBA believes in learning beyond the classroom and in interaction with industry. We at the Department instill aptitude to think logically and act rationally. Faculty members at MBA promote knowledge through teaching, research and training. Various tools are used to allow students to become Managers, Leaders and Entrepreneurs.
