GREEN CAMPUS INITIATIVES

The Objectives: Green campus initiatives are becoming integral part of the modern-day education system and the institutions can act as pioneers in promoting these principles within society. Our college has initiated the green campus program in order to support a sustainable and climate-friendly environment. The main objectives for these initiatives were environmental awareness and education, the use of sustainable energy and energy efficient measures, comprehensive recycling and green landscaping in the campus

The Context: Our main focus behind this Green campus program is to ensure the sustainability of sufficient water, materials and other resources for our future generation. But the main challenge is the proper translation of the education for sustainable development into practice so that it can be more effective. Any new development should consider and maintain the proper balance of economic, social and environmental conditions and the participation of all the staff members and students is very important. Our college has tried to implement this program by organization of conferences and training programs for students and staff

Green campus initiatives in the campus

1. Rain water Harvesting
2. Recycling of Bio degradable and Non Bio Degradable wastes
3. Planting and Landscaping of Trees
4. Swatch Bharath Programs
5. Ban of plastic rallies
6. One day farming
7. Making of Eco Friendly Ganesh Idols
8. Restricted entry of Automobiles
9. Save Water, Save Energy Campaign
10. Pedestrian Pathway
11. Usage of public transport
12. Plastic Free Campus

Rain water Harvesting

The college has a bore well to meet the general needs of the institution; the institution encourages recycling or RO water and rain water harvesting. The water from the roof tops is collected through a well-connected pipe work. This arrangement is helpful in collecting water, which is then collected into pits, specially constructed for this purpose, The rain water stored in the pits, is used for. The maintenance of the green cover on the campus. In the hot summer, when water scarcity is more, the surrounding bore well get recharged and the ground water level increases

DEGRADABLE AND NON-DEGRADABLE WASTE MANAGEMENT

Effective management of waste – either by disposal or recycling, is a critical process for any organization as it impacts the health and environment of not only the people working and residing in the campus but also of those living in the vicinity. Providing a healthy and safe environment is therefore of utmost priority

Solid waste management

Solid waste management in the campus is accomplished either by in-house utilization/consumption or by outsourcing its collection and disposal to an authorized agency. Bins have been provided across the campus for collection of the solid waste generated at different sources.

E-Waste Management

E- Waste management refers to properly disposing and managing electronic waste, including old or discarded electronic gadgets such as phones, computers, and televisions. The waste generated from obsolete electronic equipment -Computer monitors, CPUs, and other E-waste is collected by “Clean Earth- Green Earth Solutions” who undertake recycling activities. Remaining waste is disposed off through Municipal agency.

Liquid Waste Management

It is a method for preventing the discharge of pollutants into water ways by collecting and disposing of hazardous liquid items. The liquid waste is generated from science laboratories, hostels and canteen. The institution channelizes waste water from all the laboratories to underground channels for disposal.

Swatch Bharath Programs

The Swatch Bharat Abhiyan is the most significant cleanliness campaign by the Government of India. Sri Narendra Modhi led a cleanliness pledge. A sense of responsibility has been evoked among the people through the Clean India Movement. With citizens now becoming active participants in cleanliness activities across the nation, the dream of a 'Clean India' once seen by Mahatma Gandhi has begun to get a shape.

Our college is doing various events under this program in order to create awareness among students about cleanliness of environment.

Rallies on Ban of use of plastic

Now a day's most of the people are using plastic in the form of plastic bags, plastic bottle, plastic covers and throwing the plastic wherever they want and burning plastics, so the land, air get polluted. Many of the plants and animals are extinct and people also facing many health problems. By eating, drinking food in plastic we are facing lot of health problems like cancer, breathing problems, liver problems, Hormonal imbalance, food poisoning, genetic problems, mental problems etc.

The campus is plastic free as there is a complete restriction on single use plastics on the campus. Special bins are arranged to collect the plastic waste. Students participate in awareness activities inside and outside the campus. Hazardous of use of plastic are explained to students from time to time by organizing Seminars to make plastic free zone.

Our students and staff explained about the benefits of avoiding the usage of plastic, use of cotton bags, paper bags instead of plastic to reduce the pollution and save the environment, plants, animals and human life.

One day organic farming

Organic farming is a system of farming that aims at keeping the soil alive, maintaining its good health, cultivating the land and then raising the crops. This must be done to maintain a pollution-free environment and in an ecological manner. Our college students have participated in one day organic farming program in the nearby village along with the villagers.

Making of Eco Friendly Ganesh Idols

Being responsible citizens we can accomplish something for our environment Plaster of Paris is non-biodegradable made of poisons and unsafe colors and it severely pollutes the sea-going life and water bodies. To spare and secure our nature, we should hold hands and do our bit, and go for eco-friendly items.

Restricted entry of Automobiles

No vehicle is allowed into the campus from the main gate, only the second gate is allowed for vehicles entry to make the campus pollution free. The visitors vehicles are parked outside the campus gate. Students nearby are encouraged to come by bicycles to college.

Save Water, Save Energy Campaign:

Our college has organized 'Save Water Campaign' to sensitize students about the conservation of water which is a precious resource and should be conserved for future generations also. The campaign was organized under the guidance NSS unit. The Students prepared placards, slogans and banners. With full energy students participated in this campaign and spread awareness for conservation of water and also how to minimize the use of water. It aimed at conserving and protecting natural water bodies and their aquatic environments. Saving water helps to preserve our environment and with slogans students participated enthusiastically. Many ideas were given by students like turn off the tap while brushing your teeth, turn off the tap while washing your hands, and check your toilet for leaks.

Pedestrian Pathway

The pathways inside the campus are well maintained and pedestrians can walk safely through the campus as entry of vehicles is restricted. Security Guards at the two gates keep an eye on the entry of vehicles into the campus.

Pedestrian friendly pathways are properly marked with suitable sign boards. Many of the non-teaching staff and a few students in and around the location daily come to the college by walk.
